Brocade SAN Advanced

Category: Networking & Security | **Vendor:** Brocade

Duration: 32.00 hours (4 days) **26.0 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

- FC Adaptive Networking Overview (Top Talker, QoS, Ingress Rate Limiting, TI-Zones)
- FCIP tunneling techniques
- FC-FC Routing (EX-Ports, LSANs)
- Security concepts of Brocade SAN Switches
- Access Gateway Mode
- FC Long Distance
- Basic Troubleshooting SANs
- Virtual Fabrics Overview
- Extensive hands-on labs

About This Course

- FC Adaptive Networking Overview (Top Talker, QoS, Ingress Rate Limiting, TI-Zones)
- FCIP tunneling techniques
- FC-FC Routing (EX-Ports, LSANs)
- Security concepts of Brocade SAN Switches
- Access Gateway Mode
- FC Long Distance
- Basic Troubleshooting SANs
- Virtual Fabrics Overview
- Extensive hands-on labs

Who Should Attend

- Experienced Brocade Switch administrators
- System Integrators, Field / System Engineers and Support staff
- SAN designer
- Employees preparing for the BCFP certification

Prerequisites & Entry Requirements

General Prerequisites:

- Deep understanding of FC/SCSI Storage solutions and LANs
- Brocade SAN Fundamentals (BRF)

Learning Outcomes

Upon successful completion of this course, participants will be able to:

This course teaches students advanced FC SAN topics such as virtualization, Data Center Interconnect via native FC and native FCIP as well as interesting Traffic Engineering techniques for Brocade "Adaptive Networking" (QoS, Top Talker, TI-Zoning).
Other important topics deal with FC-FC Routing for more efficient and robust resource management within a SAN, Security features and the popular Access Gateway mode.
Finally this course covers troubleshooting, performance and monitoring techniques like Brocades D_Port, Bottleneck Monitoring and PortLog Dumps.
This hands-on class features a variety practical lab excercises and is a great resource for anyone who needs a solid overview about advanced Brocade topics. For students looking for a consolidated and theory-only class we recommend booking (!)

Detailed Course Outline

FC Adaptive Networking Overview (Top Talker, QoS, Ingress Rate Limiting, TI-Zones)

FCIP tunneling techniques

FC-FC Routing (EX-Ports, LSANs)

Security concepts of Brocade SAN Switches

Access Gateway Mode

FC Long Distance

Basic Troubleshooting SANs

Virtual Fabrics Overview

Extensive hands-on labs

Skills You Will Learn:

This course teaches students advanced FC SAN topics such as virtualization, Data Center Interconnect via native FC and native FCIP as well as interesting Traffic Engineering techniques for Brocade "Adaptive Networking" (QoS, Top Talker, TI-Zoning).
Other important topics deal with FC-FC Routing for more efficient and robust resource management within a SAN, Security features and the popular Access Gateway mode.
Finally this course covers troubleshooting, performance and monitoring techniques like Brocades D_Port, Bottleneck Monitoring and PortLog Dumps.
This hands-on class features a variety practical lab excercises and is a great resource for anyone who needs a solid overview about advanced Brocade topics. For students looking for a consolidated and theory-only class we recommend booking (!)

Frequently Asked Questions

Q: What delivery options are available for Brocade SAN Advanced?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
- Traditional Instructor-Led Classroom Training (ILT)
- On-site delivery at your offices anywhere in United Kingdom
- Private dedicated courses customized for your team

Q: How many CPD hours does this course provide?

The 4-day Brocade SAN Advanced course provides up to 26.0 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the Brocade SAN Advanced training?

The training takes place over 4 day(s), with each day lasting approximately 32.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for Brocade SAN Advanced?
