Cisco Secure Remote Worker Solution

Category: Modern Workplace & M365 | **Vendor:** Cisco

Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Users have left the building, and it's up to the security team to make sure they are protected on any device, wherever and whenever they choose to work. Remote workers need secure access to their applications and critical resources, whether they reside in the public cloud or on-premises behind perimeter security.

A full-day course to give Cisco partner pre-sales teams a technical overview of the Cisco Remote Worker solution, to include Cisco AnyConnect, Cisco Umbrella, and Cisco Duo.

This interactive session has been optimized for virtual delivery.

This course is for Cisco Partners only.

About This Course

Users have left the building, and it's up to the security team to make sure they are protected on any device, wherever and whenever they choose to work. Remote workers need secure access to their applications and critical resources, whether they reside in the public cloud or on-premises behind perimeter security.

A full-day course to give Cisco partner pre-sales teams a technical overview of the Cisco Remote Worker solution, to include Cisco AnyConnect, Cisco Umbrella, and Cisco Duo.

This interactive session has been optimized for virtual delivery.
