Browser Real User Monitoring with Cisco AppDynamics

Category: AI, Data & Analytics | **Vendor:** Cisco

Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

The Browser Real User Monitoring with Cisco AppDynamics (EUM201) training provides end-to-end visibility on the performance of your websites, mobile applications, and Internet of Things (IoT) devices. This training covers the Browser Real User Monitoring (BRUM) and Browser Synthetic Monitoring components of End User Monitoring (EUM). You will learn to use BRUM from basic usage and troubleshooting to advanced configuration and custom data. You'll also learn how to use Browser Synthetic Monitoring to monitor and optimize user experience and application performance, and how it compares to standard BRUM.

How You'll Benefit

This training will help you:

- Gain tools to understand the performance of your websites, mobile applications, and IoT devices
- Gain leading-edge skills for high-demand responsibilities in the cloud computing industry

About This Course

The Browser Real User Monitoring with Cisco AppDynamics (EUM201) training provides end-to-end visibility on the performance of your websites, mobile applications, and Internet of Things (IoT) devices. This training covers the Browser Real User Monitoring (BRUM) and Browser Synthetic Monitoring components of End User Monitoring (EUM). You will learn to use BRUM from basic usage and troubleshooting to advanced configuration and custom data. You'll also learn how to use Browser Synthetic Monitoring to monitor and optimize user experience and application performance, and how it compares to standard BRUM.

How You'll Benefit

This training will help you:

- Gain tools to understand the performance of your websites, mobile applications, and IoT devices
- Gain leading-edge skills for high-demand responsibilities in the cloud computing industry

Who Should Attend

- Cisco AppDynamics Users who want to learn how to connect website performance to real users' behaviors or experiences and troubleshoot network issues and server issues
- Application Owners or Cisco AppDynamics Users who belong to development, operations, DevOps, test/Quality Assurance (QA), or application monitoring teams and who want valuable insight into their customers' journeys through their applications, including connectivity and performance
- Developers tasked with configuring synthetic jobs and who are responsible for creating and managing synthetic scripts used for triaging and troubleshooting
- Site Reliability Engineers and Performance Monitoring Teams who analyze performance data produced through Browser Synthetic Monitoring

Prerequisites & Entry Requirements

General Prerequisites:

The skills you are expected to have before attending this training are found in the following Cisco Learning Offering:

- Introduction to APM for Cisco AppDynamics (APM210)

Learning Outcomes

Upon successful completion of this course, participants will be able to:

- Explore End User Monitoring, Browser User Monitoring, and Browser Synthetic Monitoring
- Discover the different components of EUM, BRUM, and Browser Synthetic Monitoring, including monitoring, configuration, basic usage, and troubleshooting
- Learn about custom data and BRUM license

Detailed Course Outline

- Introduction to End User Monitoring (EUM)
- Browser Real User Monitoring (BRUM) Overview
- What We Monitor
- Configuration
- Basic Usage and Troubleshooting
- Custom Data and BRUM License
- Browser Synthetic Monitoring Overview
- Analyze Browser Synthetic Data
- Create Browser Synthetic Scripts and Jobs
- Browser Synthetic Best Practices
- Configure Synthetics-based Alerts

Skills You Will Learn:

- Explore End User Monitoring, Browser User Monitoring, and Browser Synthetic Monitoring
- Discover the different components of EUM, BRUM, and Browser Synthetic Monitoring, including monitoring, configuration, basic usage, and troubleshooting
- Learn about custom data and BRUM license

Frequently Asked Questions

Q: What delivery options are available for Browser Real User Monitoring with Cisco AppDynamics?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
- Traditional Instructor-Led Classroom Training (ILT)
- On-site delivery at your offices anywhere in United Kingdom
- Private dedicated courses customized for your team

Q: How many CPD hours does this course provide?

The 1-day Browser Real User Monitoring with Cisco AppDynamics course provides up to 6.5 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the Browser Real User Monitoring with Cisco AppDynamics training?

The training takes place over 1 day(s), with each day lasting approximately 8.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for Browser Real User Monitoring with Cisco AppDynamics?

Yes, we provide corporate training, dedicated training, and closed classes for Browser Real User Monitoring with Cisco AppDynamics. Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

Q: What related terms do people search for?

Popular related searches include: Browser Real User Monitoring with Cisco AppDynamics, Cisco High Touch Delivery Courses, EUM201

Q: Why choose Nexus Human for Browser Real User Monitoring with Cisco AppDynamics?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

Q: Are there any discount codes available?

Yes! Use discount code **PENPAL5** when booking your Browser Real User Monitoring with Cisco AppDynamics training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
