Hybrid Cloud Modernizing Applications with Anthos

Category: Cloud Platforms | **Vendor:** Google Cloud

Duration: 1.00 hours (1 days) **0.8 CPD Hours**

Rating: ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: vILT

Course Overview

Learn how to modernize your applications using Anthos with our Hybrid Cloud Modernizing Applications with Anthos Course, which also covers serverless computing, workload migration, and CI/CD strategies. This 1-day intermediate level course is designed for professionals with practical experience in Anthos. To get the best out of this course, you must have basic knowledge of Google Cloud Platform (GCP), Google Kubernetes Engine (GKE), and service mesh management with Anthos.

About This Course

Learn how to modernize your applications using Anthos with our Hybrid Cloud Modernizing Applications with Anthos Course, which also covers serverless computing, workload migration, and CI/CD strategies. This 1-day intermediate level course is designed for professionals with practical experience in Anthos. To get the best out of this course, you must have basic knowledge of Google Cloud Platform (GCP), Google Kubernetes Engine (GKE), and service mesh management with Anthos.

Who Should Attend

Multi-cluster, Multi-cloud with Anthos, Cloud Operations and Service Mesh with Anthos, Anthos on Bare Metal, Architecting with GKE

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Course ObjectivesIdentify the workload challenges addressed and the components involved in serverless computing solutions on AnthosInstall workloads on Cloud Run and Cloud Run for AnthosConfigure and review logging, metrics, and monitoring for serverless computing solutions on AnthosIdentify phases of migration and workload types for migrations with AnthosInstall Migrate for AnthosMigrate workloadsExplain best practices when migrating with AnthosExplain multiple strategies for automated application deployment and continuous integration and delivery (CI/CD) with Anthos, Course ObjectivesIdentify the workload challenges addressed and the components involved in serverless computing solutions on AnthosInstall workloads on Cloud Run and Cloud Run for AnthosConfigure and review logging, metrics, and monitoring for serverless computing solutions on AnthosIdentify phases of migration and workload types for migrations with AnthosInstall Migrate for AnthosMigrate workloadsExplain best practices when migrating with AnthosExplain multiple strategies for automated application deployment and continuous integration and delivery (CI/CD) with Anthos, Course ObjectivesIdentify the workload challenges addressed and the components involved in serverless computing solutions on AnthosInstall workloads on Cloud Run and Cloud Run for AnthosConfigure and review logging, metrics, and monitoring for serverless computing solutions on AnthosIdentify phases of migration and workload types for migrations with AnthosInstall Migrate for AnthosMigrate workloadsExplain best practices when migrating with AnthosExplain multiple strategies for automated application deployment and continuous integration and delivery (CI/CD) with Anthos, Course ObjectivesIdentify the workload challenges addressed and the components involved in serverless computing solutions on AnthosInstall workloads on Cloud Run and Cloud Run for AnthosConfigure and review logging, metrics, and monitoring for serverless computing solutions on AnthosIdentify phases of migration and workload types for migrations with AnthosInstall Migrate for AnthosMigrate workloadsExplain best practices when migrating with AnthosExplain multiple strategies for automated application deployment and continuous integration and delivery (CI/CD) with Anthos, Course ObjectivesIdentify the workload challenges addressed and the components involved in serverless computing solutions on AnthosInstall workloads on Cloud Run and Cloud Run for AnthosConfigure and review logging, metrics, and monitoring for serverless computing solutions on AnthosIdentify phases of migration and workload types for migrations with AnthosInstall Migrate for AnthosMigrate workloadsExplain best practices when migrating with AnthosExplain multiple strategies for automated application deployment and continuous integration and delivery (CI/CD) with Anthos, Course ObjectivesIdentify the workload challenges addressed and the components involved in serverless computing solutions on AnthosInstall workloads on Cloud Run and Cloud Run for AnthosConfigure and review logging, metrics, and monitoring for serverless computing solutions on AnthosIdentify phases of migration and workload types for migrations with AnthosInstall Migrate for AnthosMigrate workloadsExplain best practices when migrating with AnthosExplain multiple strategies for automated application deployment and continuous integration and delivery (CI/CD) with Anthos, Course ObjectivesIdentify the workload challenges addressed and the components involved in serverless computing solutions on AnthosInstall workloads on Cloud Run and Cloud Run for

Detailed Course Outline

Application Migration with Anthos, Modern CI/CD for Anthos, Serverless on Anthos, Application Migration with Anthos, Modern CI/CD for Anthos, Serverless on Anthos

Frequently Asked Questions

Q: What delivery options are available for Hybrid Cloud Modernizing Applications with Anthos?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
- Traditional Instructor-Led Classroom Training (ILT)
- On-site delivery at your offices anywhere in United Kingdom
- Private dedicated courses customized for your team

Q: How many CPD hours does this course provide?

The 1-day Hybrid Cloud Modernizing Applications with Anthos course provides up to 0.8 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the Hybrid Cloud Modernizing Applications with Anthos training?

The training takes place over 1 day(s), with each day lasting approximately 1.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for Hybrid Cloud Modernizing Applications with Anthos?

Yes, we provide corporate training, dedicated training, and closed classes for Hybrid Cloud Modernizing Applications with Anthos. Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

Q: What related terms do people search for?

Popular related searches include: Hybrid Cloud Modernizing Applications with Anthos, Google Cloud, vILT

Q: Why choose Nexus Human for Hybrid Cloud Modernizing Applications with Anthos?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

Q: Are there any discount codes available?

Yes! Use discount code **PENPAL5** when booking your Hybrid Cloud Modernizing Applications with Anthos training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
