MB-310T00: Manage Financial Operations with Dynamics 365 Finance

Category: Business Applications | **Vendor:** Microsoft

Duration: 4.00 hours (1 days) **3.3 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format:	vILT
Certification:	Microsoft Certified: Dynamics 365 Finance Functional Consultant Associate
Related Exam:	MB-310

Course Overview

Microsoft Dynamics 365 Finance (MB-310) course is for Finance consultants who want to build a solution on Dynamics 365 that includes accounts payable and receivable, budgeting, and more. The learner is taken through the process of configuring the app, from the phase of discovery and requirement capturing to the solution delivery.

About This Course

Microsoft Dynamics 365 Finance (MB-310) course is for Finance consultants who want to build a solution on Dynamics 365 that includes accounts payable and receivable, budgeting, and more. The learner is taken through the process of configuring the app, from the phase of discovery and requirement capturing to the solution delivery.

Prerequisites & Entry Requirements

General Prerequisites:

Core competencies in Dynamics 365 Core, Basic accounting skills

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and

disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating,

and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including

electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management

features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and

account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial

processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and

disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating,

and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financial management features in Dynamics 365 Finance, including accounts payable, accounts receivable, and general ledger functionalities.Manage budgeting processes by creating, allocating, and tracking budgets to support financial planning.Set up and process fixed assets and maintain depreciation, acquisition, and disposal transactions.Implement tax setup and management, including sales tax, tax jurisdictions, and reporting.Perform periodic financial processes, including closing procedures and financial reporting using built-in tools.Understand and apply financial dimensions and account structures to support comprehensive financial analysis.Use and configure cost accounting and cost management features to analyze the efficiency of business operations.Generate financial reports and statements, leveraging tools like Financial Reporter and electronic reporting., Course ObjectivesConfigure and use financ

Detailed Course Outline

Get started with Dynamics 365 Finance., Get started with Dynamics 365 Finance., Configure currencies in Dynamics 365 Finance, Configure currencies in Dynamics 365 Finance, Set up ledgers and journals in Dynamics 365 Finance., Set up ledgers and journals in Dynamics 365 Finance., Configure chart of accounts in Dynamics 365 Finance, Configure chart of accounts in Dynamics 365 Finance, Create fiscal calendars, years, and periods in Dynamics 365 Finance, Create fiscal calendars, years, and periods in Dynamics 365 Finance, Configure taxes in Dynamics 365 Finance, Configure taxes in Dynamics 365 Finance, Set up accounts receivable in Dynamics 365 Finance, Set up accounts receivable in Dynamics 365 Finance, Configure cash and bank management in Dynamics 365 Finance, Configure cash and bank management in Dynamics 365 Finance, Process credit and collections in Dynamics 365 Finance, Process credit and collections in Dynamics 365 Finance, Configure Accounts payable in Dynamics 365 Finance, Configure Accounts payable in Dynamics 365 Finance, Set up credit and collections in Dynamics 365 Finance, Set up credit and collections in Dynamics 365 Finance, Perform accounts receivable daily procedures in Dynamics 365 Finance,

Perform accounts receivable daily procedures in Dynamics 365 Finance, Get started with Expense management in Dynamics 365 Project Operations, Get started with Expense management in Dynamics 365 Project Operations, Set up and configure Expense management in Dynamics 365 Project Operations, Set up and configure Expense management in Dynamics 365 Project Operations, Perform Accounts payable daily procedures in Dynamics 365 Finance, Perform Accounts payable daily procedures in Dynamics 365 Finance, Work with accounting distributions, invoice validations, and settlements in Dynamics 365 Finance, Work with accounting distributions, invoice validations, and settlements in Dynamics 365 Finance, Configure fixed assets management in Dynamics 365 Finance, Configure fixed assets management in Dynamics 365 Finance, Configure and use budget planning in Dynamics 365 Finance, Configure and use budget planning in Dynamics 365 Finance, Manage fixed assets in Dynamics 365 Finance, Manage fixed assets in Dynamics 365 Finance, Configure and use basic budgeting and budget control in Dynamics 365 Finance, Configure and use basic budgeting and budget control in Dynamics 365 Finance, Work with travel requisitions in Dynamics 365 Project Operations, Work with travel requisitions in Dynamics 365 Project Operations, Create and process expense reports in Dynamics 365 Project Operations, Create and process expense reports in Dynamics 365 Project Operations, Work with analytics and reporting in finance and operations apps, Work with analytics and reporting in finance and operations apps, Configure and perform periodic processes in Dynamics 365 Finance, Configure and perform periodic processes in Dynamics 365 Finance, Configure ledger allocations and accruals in Dynamics 365 Finance, Configure ledger allocations and accruals in Dynamics 365 Finance, Intercompany accounting in Dynamics 365 Finance, Intercompany accounting in Dynamics 365 Finance, Perform general ledger daily procedures in Dynamics 365 Finance, Perform general ledger daily procedures in Dynamics 365 Finance, Get started with Dynamics 365 Finance, Get started with Dynamics 365 Finance, Configure currencies in Dynamics 365 Finance, Configure currencies in Dynamics 365 Finance, Create fiscal calendars, years, and periods in Dynamics 365 Finance, Create fiscal calendars, years, and periods in Dynamics 365 Finance, Configure chart of accounts in Dynamics 365 Finance, Configure chart of accounts in Dynamics 365 Finance, Set up ledgers and journals in Dynamics 365 Finance, Set up ledgers and journals in Dynamics 365 Finance, Perform general ledger daily procedures in Dynamics 365 Finance, Perform general ledger daily procedures in Dynamics 365 Finance, Intercompany accounting in Dynamics 365 Finance, Intercompany accounting in Dynamics 365 Finance, Configure ledger allocations and accruals in Dynamics 365 Finance, Configure ledger allocations and accruals in Dynamics 365 Finance, Configure and perform periodic processes in Dynamics 365 Finance,

Configure and perform periodic processes in Dynamics 365 Finance, Work with analytics and reporting in finance and operations apps, Work with analytics and reporting in finance and operations apps, Configure cash and bank management in Dynamics 365 Finance, Configure cash and bank management in Dynamics 365 Finance, Configure taxes in Dynamics 365 Finance, Configure taxes in Dynamics 365 Finance, Get started with cost accounting in Dynamics 365 Finance, Get started with cost accounting in Dynamics 365 Finance, Configure and work with inventory management in Dynamics 365 Supply Chain Management, Configure and work with inventory management in Dynamics 365 Supply Chain Management, Use inventory reports in Dynamics 365 Supply Chain Management, Use inventory reports in Dynamics 365 Supply Chain Management, Work with the costing sheet in Dynamics 365 Supply Chain Management, Work with the costing sheet in Dynamics 365 Supply Chain Management, Set up accounts receivable in Dynamics 365 Finance, Set up accounts receivable in Dynamics 365 Finance, Perform accounts receivable daily procedures in Dynamics 365 Finance, Perform accounts receivable daily procedures in Dynamics 365 Finance, Set up credit and collections in Dynamics 365 Finance, Set up credit and collections in Dynamics 365 Finance, Process credit and collections in Dynamics 365 Finance, Process credit and collections in Dynamics 365 Finance, Configure Accounts payable in Dynamics 365 Finance, Configure Accounts payable in Dynamics 365 Finance, Perform Accounts payable daily procedures in Dynamics 365 Finance, Perform Accounts payable daily procedures in Dynamics 365 Finance, Work with accounting distributions, invoice validations and settlements in Dynamics 365 Finance, Work with accounting distributions, invoice validations and settlements in Dynamics 365 Finance, Get started with Expense management in Dynamics 365 Project Operations, Get started with Expense management in Dynamics 365 Project Operations, Set up and configure Expense management in Dynamics 365 Project Operations, Set up and configure Expense management in Dynamics 365 Project Operations, Create and process expense reports in Dynamics 365 Project Operations, Create and process expense reports in Dynamics 365 Project Operations, Work with travel requisitions in Dynamics 365 Project Operations, Work with travel requisitions in Dynamics 365 Project Operations, Set up and use basic budgeting Dynamics 365 Finance, Set up and use basic budgeting Dynamics 365 Finance, Set up and use budget control in Dynamics 365 Finance, Set up and use budget control in Dynamics 365 Finance, Configure and use budget planning in Dynamics 365 Finance, Configure and use budget planning in Dynamics 365 Finance, Configure fixed assets management in Dynamics 365 Finance, Configure fixed assets management in Dynamics 365 Finance, Set up and acquire fixed assets in Dynamics 365 Finance, Set up and acquire fixed assets in Dynamics 365 Finance, Configure financial

management, Configure financial management, Manage accounts receivable, Manage accounts receivable, Manage accounts payable, Manage accounts payable, Perform budgeting and forecasting, Perform budgeting and forecasting, Administer fixed assets and inventory, Administer fixed assets and inventory

🎓 Certification Path

Microsoft Certified: Dynamics 365 Finance Functional Consultant Associate

Exam: MB-310

Frequently Asked Questions

Q: What delivery options are available for MB-310T00: Manage Financial Operations with Dynamics 365 Finance?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
- Traditional Instructor-Led Classroom Training (ILT)
- On-site delivery at your offices anywhere in United Kingdom
- Private dedicated courses customized for your team

Q: What certification does this course prepare me for?

The MB-310T00: Manage Financial Operations with Dynamics 365 Finance course helps prepare you for the Microsoft Certified: Dynamics 365 Finance Functional Consultant Associate certification path.

Q: Which exam does this course prepare me for?

This course prepares you for the MB-310 official exam. You can take this exam at any exam center across United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online wherever you are located.

Q: How many CPD hours does this course provide?

The 1-day MB-310T00: Manage Financial Operations with Dynamics 365 Finance course provides up to 3.3 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the MB-310T00: Manage Financial Operations with Dynamics 365 Finance training?

The training takes place over 1 day(s), with each day lasting approximately 4.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for MB-310T00: Manage Financial Operations with Dynamics 365 Finance?

Yes, we provide corporate training, dedicated training, and closed classes for MB-310T00: Manage Financial Operations with Dynamics 365 Finance.
