Monitor Business Performance with Cisco AppDynamics

Category: AI, Data & Analytics | **Vendor:** Cisco

Duration: 8.00 hours (1 days) **6.5 CPD Hours** **Rating:** ⭐ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

The Monitor Business Performance with Cisco AppDynamics (ALY402) training outlines how to use Cisco AppDynamics Analytics features and Business iQ to see what is impacting your business performance. You'll learn how to capture your full-stack performance and transaction data to answer questions like, "How much revenue is lost due to failed checkout transactions?" and "What's the daily revenue for specific geographic areas by product?" You'll learn to define and manage analytics searches, metrics, and visualizations, and create dashboards that meet the goals of your Business iQ use cases.

How You'll Benefit

This workshop will help you:

- Use Cisco AppDynamics Analytics to capture and make the most of your full-stack performance and transaction data
- Gain leading-edge skills for high-demand responsibilities in the cloud computing industry

About This Course
