

AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization

Category: Virtualization

Duration: 40.00 hours (5 days)

32.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

This course explains the new features and benefits of virtualization including processor virtualization, Virtual I/O Server, and virtual devices, such as virtual Ethernet, virtual SCSI, and virtual Fibre Channel adapters.

About This Course

This course explains the new features and benefits of virtualization including processor virtualization, Virtual I/O Server, and virtual devices, such as virtual Ethernet, virtual SCSI, and virtual Fibre Channel adapters.

Who Should Attend

This advanced course is appropriate for System Administrators, Technical Support Personnel, and Business Partners responsible for implementing LPARs on IBM Power Systems with AIX servers.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Discuss the advantages or value of PowerVM edition's features
Define micro-partitioning and shared processor LPARs
Discuss the benefits of simultaneous multithreading
Discuss and configure the Integrated Virtual Ethernet (IVE)
Install and configure the Virtual I/O Server
Configure virtual network devices, such as virtual Ethernet and shared Ethernet adapters
Configure virtual SCSI and virtual Fibre Channel storage adapters
Configure virtual SCSI target devices on a virtual SCSI adapter
Define file-backed storage pools and file-backed virtual optical devices
Identify single points of failure in virtualized environments
Configure multiple VIO servers for high availability
Configure advanced virtual networking options
Configure the shared Ethernet adapter failover feature
Configure advanced virtual SCSI options
Configure MPIO in a VIO server's client partition
Manage the service events, configure call home, add, exchange FRUs, and discuss FSP failover
Perform PowerVM (VIOS) Maintenance

Additional Course Details

Nexus Humans AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.

Frequently Asked Questions

Q: What delivery options are available for AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
 - Traditional Instructor-Led Classroom Training (ILT)
 - On-site delivery at your offices anywhere in United Kingdom
 - Private dedicated courses customized for your team
-

Q: How many CPD hours does this course provide?

The 5-day AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization course provides up to 32.5 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization training?

The training takes place over 5 day(s), with each day lasting approximately 40.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization?

Yes, we provide corporate training, dedicated training, and closed classes for AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization. Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

Q: Why choose Nexus Human for AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

Q: Are there any discount codes available?

Yes! Use discount code **PENPAL5** when booking your AN30 IBM Power Systems for AIX - Virtualization I - Implementing Virtualization training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
