Category: Developer

Duration: 32.00 hours (4 days)

26.0 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

Front-end Web Developer Course Overview

HTML, CSS, and JavaScript are the core languages of front-end web development. This course is designed to provide delegates with the knowledge and skills necessary to build and deploy stylish, dynamic websites/web apps that look good on any device.

Delegates will first learn how to construct and style responsive web pages with HTML and CSS. Then, delegates will learn how to make their web pages dynamic by exploiting JavaScript, the DOM, event handling, and Web APIs.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

NB: This course assumes ES6 as the baseline specification for JavaScript. This is because ES6 is now widely supported.

About This Course

Front-end Web Developer Course Overview

HTML, CSS, and JavaScript are the core languages of front-end web development. This course is designed to provide delegates with the knowledge and skills necessary to build and deploy stylish, dynamic websites/web apps that look good on any device.

Delegates will first learn how to construct and style responsive web pages with HTML and CSS. Then, delegates will learn how to make their web pages dynamic by exploiting JavaScript, the DOM, event handling, and Web APIs.
