Course Overview

Java Programming 1 / Java Developer Course Overview

Java is everywhere and is as popular as ever. This hands-on course, delivered using Java 17, endeavours to provide the fundamental skills you need to become a Java Developer. We'll have you build a series of realistic apps focusing on object-oriented principles from the start.

Note that this is not a beginners course. You are expected to be familiar with programming concepts and have a little coding experience. If not you should consider our Introduction to Programming - Java course instead.

Similarly, the course is targeted to closely follow the official Oracle Java curriculum for certification. Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.
