

# MariaDB Database Administration

**Duration:** 32.00 hours (4 days)

**26.0 CPD Hours**

**Rating:** ★ 4.6 (5,878 reviews)

## Course Information

**Delivery Format:** Instructor Led - Online

## Course Overview

### MariaDB Database Administration Course Overview

This MariaDB Database Administration course is designed for MariaDB 10 Database Administrators who have a basic understanding of a MariaDB database and a good working knowledge of SQL commands.

The course provides an understanding of MariaDB Architecture and practical experience in setting up, configuring and maintaining a MariaDB server, and backing up and recovering data. This MariaDB Database Administration course also covers MySQL replication and its role in high availability and scalability.

Similarly, the course is targeted to closely follow the official MariaDB curriculum for certification. Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

Versions supported 10.n
