

MongoDB Essentials

Duration: 8.00 hours (1 days)

6.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

MongoDB Essentials Course Overview

The MongoDB Essentials course is designed to give delegates experience of installing and using the MongoDB database. This hands-on course introduces delegates to the concept of a document-oriented database then shows how to set up MongoDB for use. Delegates use the built-in shell and various APIs to build a database access application and manipulate data. We also investigate optimising queries using indexes and aggregating data with MongoDB functions.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

About This Course

MongoDB Essentials Course Overview

The MongoDB Essentials course is designed to give delegates experience of installing and using the MongoDB database. This hands-on course introduces delegates to the concept of a document-oriented database then shows how to set up MongoDB for use. Delegates use the built-in shell and various APIs to build a database access application and manipulate data. We also investigate optimising queries using indexes and aggregating data with MongoDB functions.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

Prerequisites & Entry Requirements

General Prerequisites:

Requirements

An understanding of programming and database principles would be beneficial.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Course Objectives

By the end of the course delegates should be able to:

- Install the MongoDB database
- Use the MongoDB shell to access the database
- Create, retrieve, update and delete data
