Course Overview

Oracle Application Express 21 (APEX) Course Overview

This Oracle Application Express 21 (APEX) course introduces the delegate to Oracle's Application Express version 21 software. It is designed to give delegates practical experience in using Application Express version 21, also known as Apex, for building web-based applications for an Oracle database. In version 21 there are a variety of enhancements to the developer environment including the code editor and a cleaner looking page designer interface. There is a new Theme Style, a Map Region type, some new or improved Item Types and other miscellaneous changes.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.
