About This Course

This unique course combines our popular Desktop I and II courses to ramp you up on Tableau Desktop quickly. You'll learn the foundational concepts of Tableau and also more complex skills that will distinguish you as a power user.

Take advantage of the flexible class options below. We have this class available as either full days or spread out over 5 half days.

Who Should Attend

A fast-paced three day course covering fundamental and intermediate Tableau topics. This course provides comprehensive Tableau training for students who thrive in a swiftly moving class and prefer to come up to speed on new technology quickly. Desktop I & II: Accelerated teaches concepts, techniques, and shortcuts to create Tableau data visualization competency in the shortest amount of time possible.

Learning Outcomes

Upon successful completion of this course, participants will be able to:

Build advanced chart types and visualizations. Build complex calculations to manipulate your data. Use statistical techniques to analyze your data. Use parameters and input controls to give users control over certain values. Implement advanced geographic mapping techniques and use custom images and geocoding to build spatial visualizations of non-geographic data. Prep your data for analysis. Combine data sources using data blending. Make your visualizations perform as well as possible using the Data Engine, extracts, efficient connection methods, and data connection best practices. Build better dashboards using techniques for guided analytics, interactive dashboard design, and visual best practices. Implement efficiency tips and tricks.
