

VMware Horizon Cloud Service Next Gen on Microsoft Azure: Deploy and Manage

Duration: 40.00 hours (5 days)

32.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

This five-day, hands-on training provides you with the knowledge, skills, and abilities to successfully deploy and manage VMware Horizon® Cloud Service on Microsoft Azure. This training also teaches you how to use the VMware Horizon Cloud administration console and Microsoft Azure portal. Through a combination of hands-on labs and interactive lectures, you learn how to import and manage images for single and multisession assignments. You also learn how to configure and use the Universal Broker function, VMware App Volumes, VMware Workspace ONE® Access, and VMware Dynamic Environment Manager in the Horizon Cloud Service on Microsoft Azure deployment.

About This Course

This five-day, hands-on training provides you with the knowledge, skills, and abilities to successfully deploy and manage VMware Horizon® Cloud Service on Microsoft Azure. This training also teaches you how to use the VMware Horizon Cloud administration console and Microsoft Azure portal. Through a combination of hands-on labs and interactive lectures, you learn how to import and manage images for single and multisession assignments. You also learn how to configure and use the Universal Broker function, VMware App Volumes', VMware Workspace ONE® Access', and VMware Dynamic Environment Manager in the Horizon Cloud Service on Microsoft Azure deployment.
