

VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x]

Duration: 40.00 hours (5 days)

32.5 CPD Hours

Rating: ★ 4.6 (5,878 reviews)

Course Information

Delivery Format: Instructor Led - Online

Course Overview

This five-day, fast-paced course provides comprehensive training to install, configure, and manage a VMware NSX Advanced Load Balancer (Avi Networks) solution. This course covers key NSX Advanced Load Balancer (Avi Networks) features and functionality offered in the NSX Advanced Load Balancer 21.x release. Features include the overall infrastructure, virtual services, application components, global server load balancing, various cloud connectors, application troubleshooting, and solution monitoring. Hands-on labs provide access to a software-defined data center environment to reinforce the skills and concepts presented in the course.

About This Course

This five-day, fast-paced course provides comprehensive training to install, configure, and manage a VMware NSX Advanced Load Balancer (Avi Networks) solution. This course covers key NSX Advanced Load Balancer (Avi Networks) features and functionality offered in the NSX Advanced Load Balancer 21.x release. Features include the overall infrastructure, virtual services, application components, global server load balancing, various cloud connectors, application troubleshooting, and solution monitoring. Hands-on labs provide access to a software-defined data center environment to reinforce the skills and concepts presented in the course.

Who Should Attend

Experienced system administrators and network administrators

Learning Outcomes

Upon successful completion of this course, participants will be able to:

By the end of the course, you should be able to meet the following objectives:

Describe the NSX Advanced Load Balancer architecture

Describe the NSX Advanced Load Balancer components and main functions

Explain the NSX Advanced Load Balancer key features and benefits

Deploy and configure the NSX Advanced Load Balancer infrastructure within private or public clouds using Write and No-Access Cloud Connectors

Explain, deploy, and configure Service Engines

Explain and configure local load balancing constructs such as virtual services, pools, health monitors, and related components

Explain and configure advanced virtual services and related concepts such as Subject Name Indication, Enhanced Virtual Hosting, and authentication of virtual services

Explain and modify application behavior through profiles, policies, and DataScripts

Describe Central licensing management using VMware NSX Advanced Load Balancer Enterprise with Cloud services (formerly Avi Pulse)

Explain how to configure Role-Based Access Control (RBAC) in NSX Advanced Load Balancer

Configure advanced services such as global server load balancing

Describe how to use NSX Advanced Load Balancer REST API interfaces and related automation capabilities

Describe and configure NSX Advanced Load Balancer application and infrastructure monitoring

Gather relevant information and perform basic troubleshooting of applications that use built-in NSX Advanced Load Balancer tooling

Identify the key features of VMware NSX Network Detection and Response

Additional Course Details

Nexus Humans VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x] training program is a workshop that presents an invigorating mix of sessions, lessons, and masterclasses meticulously crafted to propel your learning expedition forward.

This immersive bootcamp-style experience boasts interactive lectures, hands-on labs, and collaborative hackathons, all strategically designed to fortify fundamental concepts.

Guided by seasoned coaches, each session offers priceless insights and practical skills crucial for honing your expertise. Whether you're stepping into the realm of professional skills or a seasoned professional, this comprehensive course ensures you're equipped with the knowledge and prowess necessary for success.

While we feel this is the best course for the VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x] course and one of our Top 10 we encourage you to read the course outline to make sure it is the right content for you.

Additionally, private sessions, closed classes or dedicated events are available both live online and at our training centres in Dublin and London, as well as at your offices anywhere in the UK, Ireland or across EMEA.

Frequently Asked Questions

Q: What delivery options are available for VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x]?

We offer multiple delivery formats:

- Live Instructor-Led Classroom Online (Virtual/Live Online)
 - Traditional Instructor-Led Classroom Training (ILT)
 - On-site delivery at your offices anywhere in United Kingdom
 - Private dedicated courses customized for your team
-

Q: How many CPD hours does this course provide?

The 5-day VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x] course provides up to 32.5 CPD hours of structured learning. CPD certificates can be provided upon request.

Q: What is the duration of the VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x] training?

The training takes place over 5 day(s), with each day lasting approximately 40.00 hours including breaks for lunch and refreshments.

Q: Do you provide corporate training for VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x]?

Yes, we provide corporate training, dedicated training, and closed classes for VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x]. Training can take place anywhere in United Kingdom including London, Manchester, Birmingham, Edinburgh, or live online allowing teams from across United Kingdom or internationally to attend.

Q: Why choose Nexus Human for VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x]?

Nexus Human is recognized as one of the leading training providers. Our trainers have won multiple awards including:

- Small Firms Best Trainer Award
- National Training Partner of the Year (Ireland) - Multiple Years
- Global Top 30 Instructor Awards (2012, 2019, 2021)
- Tech Excellence Award Nominations
- Learning Performance Institute (LPI) External Training Provider Sponsor 2024

Q: Are there any discount codes available?

Yes! Use discount code **PENPAL5** when booking your VMware NSX Advanced Load Balancer: Install, Configure, Manage [V21.x] training. Please note that only one discount code can be used per booking and cannot be combined with other special offers.
